

CYBERSECURITY FUNDAMENTALS FOR WATER AND WASTEWATER UTILITIES

January 27-28, 2021
Online | Central Time

“

“EUCI courses have three fundamental characteristics: substance, substance, and substance. Time and money well spent.”

Assistant GM-Power Supply,
Burbank Water and Power

TAG US #EUCI
FOLLOW US @EUCIEvents

The new Cybersecurity Fundamentals course for Water and Wastewater utility professionals will provide a general overview of cybersecurity program development. This online course will give organizational leaders a practical knowledge of basic security measures that can be implemented to address major cyber risks associated with the most common cyber-attacks. Water and Wastewater industry leaders attending this course will learn about the most common cyber threats, specific counter measures that can be employed by any organization, and the role organizational culture plays in impacting risk mitigating activities against water and wastewater facilities' critical infrastructure.

The key take away from this course is to provide organizational leadership with knowledge needed to be able to ask their team of cyber security professionals the right questions when conducting and internal assessment of their organization's cybersecurity posture and ability to be resilient to cyber-attacks.

LEARNING OUTCOMES

- Analyze leading trends in next-gen cyber challenges and innovative solutions
- Discuss social engineering tactics and business email compromise mitigation
- Review risk management methodology and assessments
- Communicate strategies for effective cybersecurity prioritization
- Distinguish important information on cyber contracting and litigation

INSTRUCTORS

Jake Margolis, CISSP, Chief Information Security Officer,
Metropolitan Water District of Southern California

EUCI is authorized
by IACET to offer
1.0 CEUs for the
course

ONLINE DELIVERY & PARTICIPATION DETAILS

EUCI will use Microsoft Teams to facilitate participation in the upcoming event. Attendees do not need to have an existing Teams account to participate in the broadcast. The course will play in attendee's browser. When attendees sign on, their microphones are typically muted. Attendees should keep their mic muted until such time as it's needed to ask a question. During the event, participants will have the option of using a microphone to speak with the room and ask questions, or type in any questions via the chat window and our online administrator will relay your question to the instructor.

- Each attendee will receive an event invitation by e-mail, which will include one link to sign on for each half-day of the event (i.e., three links for a 1 ½ day event). The appropriate link must be used to join each half-day event segment at the appropriate time.
- The remote meeting connection will open approximately 30 minutes before the start of the course. We encourage attendees to connect as early as possible in case of unforeseen problems.

CYBERSECURITY FUNDAMENTALS FOR WATER AND WASTEWATER UTILITIES ONLINE COURSE

JANUARY 27-28, 2021: US \$1,195 (Single Connection)

PACK OF 5 CONNECTIONS: US \$4,780 (20% Discount)

Substitutions & Cancellations

Your registration may be transferred to a member of your organization up to 24 hours in advance of the event. Cancellations must be received on or before December 19, 2020 in order to be refunded and will be subject to a US \$195.00 processing fee per registrant. No refunds will be made after this date. Cancellations received after this date will create a credit of the tuition (less processing fee) good toward any other EUCI event. This credit will be good for six months from the cancellation date. In the event of non-attendance, all registration fees will be forfeited. In case of course cancellation, EUCI's liability is limited to refund of the event registration fee only. For more information regarding administrative policies, such as complaints and refunds, please contact our offices

EUCI reserves the right to alter this program without prior notice.
