This two-day course is designed to explore the basic structure of cost of service applied to natural gas delivery at the state jurisdictional level. The course begins by setting cost of service and pricing questions in the context of the overall regulatory structure. Through this approach students are exposed to the two major approaches to cost of service: embedded and marginal cost. Applications of these approaches are taken from state rate setting proceedings with the major areas of contention among parties to regulatory proceeding highlighted. The course will also discuss the basics of rate design from a historical approach and trace the evolution of pricing as the concern over efficiency has grown and the potential for alternatives to grid-delivered energy evolve.

The course is designed in a lecture format with enough flexibility for student activities and group discussion. The intent is that participants will be able to apply the information learned the first day they return to their jobs. Hands-on activities will be included throughout the day.

LEARNING OUTCOMES

- Discuss FERC Uniform System of Accounts
- Identify revenue requirements
- Examine utility case studies
- Discover energy allocation factors
- Define the steps in the ratemaking process
- List cost classifications

INSTRUCTORS

Dr. Carl Peterson, *Clinical Professor of Economics,
University of Illinois Springfield; Executive Advisor to
Concentric Energy Advisors*

EUCI is authorized
by IACET to offer
1.3 CEUs for the
course

ONLINE DELIVERY & PARTICIPATION DETAILS

EUCI will use Microsoft Teams to facilitate participation in the upcoming event. Attendees do not need to have an existing Teams account to participate in the broadcast. The course will play in attendee's browser. When attendees sign on, their microphones are typically muted. Attendees should keep their mic muted until such time as it's needed to ask a question. During the event, participants will have the option of using a microphone to speak with the room and ask questions, or type in any questions via the chat window and our online administrator will relay your question to the instructor.

- Each attendee will receive an event invitation by e-mail, which will include one link to sign on for each half-day of the event (i.e., three links for a 1 ½ day event). The appropriate link must be used to join each half-day event segment at the appropriate time.
- The remote meeting connection will open approximately 30 minutes before the start of the course. We encourage attendees to connect as early as possible in case of unforeseen problems.

NATURAL GAS COST OF SERVICE & RATE DESIGN ONLINE COURSE: APRIL 15-16, 2021: US \$1,295 (Single Connection)

PACK OF 5 CONNECTIONS: US \$5,180 (20% Discount)

PACK OF 10 CONNECTIONS: US \$9,065 (30% Discount)

PACK OF 20 CONNECTIONS: US \$15,540 (40% Discount)

Recording: Each event is recorded, and will be available for three business days. For registrants only.

Substitutions & Cancellations

Your registration may be transferred to a member of your organization up to 24 hours in advance of the event. Cancellations must be received on or before March 12, 2021 in order to be refunded and will be subject to a US \$195.00 processing fee per registrant. No refunds will be made after this date. Cancellations received after this date will create a credit of the tuition (less processing fee) good toward any other EUCI event. This credit will be good for six months from the cancellation date. In the event of non-attendance, all registration fees will be forfeited. In case of course cancellation, EUCI's liability is limited to refund of the event registration fee only. For more information regarding administrative policies, such as complaints and refunds, please contact our offices

EUCI reserves the right to alter this program without prior notice.
