The course will describe the key elements of the natural gas supply chain, infrastructure, and operations of natural gas utilities, with extensive discussions on regulation of natural gas utilities by State Public Utility Commissions (PUCs), State Authorities, Federal Energy Regulatory Commission (FERC), and Pipeline & Materials Safety Administration (PHMSA). It will include an overview of the domestic natural gas industry, with emphasis on shale gas, pipelines, underground and surface storage, and liquefied natural gas imports and exports. We will also discuss how FERC sets interstate pipeline transportation and storage rates and the role of peak shaving plants.

Since natural gas utilities actively purchase and transport wholesale natural gas to serve their customers, the course will cover how gas is priced in bidweek and daily markets, pipeline nominations, and how natural gas utilities can physically and financially hedge their gas supplies and price volatility.

EUCI is authorized by IACET to offer 1.0 CEUs for the course. Participants must log on each day and be in attendance for the entirety of the course to be eligible for continuing education credit.

LEARNING OUTCOMES

- Determine how local distribution companies (LDC's) fit in the natural gas supply chain
- Review natural gas utility activities in the physical natural gas markets, pricing mechanisms, and how LDCs can hedge gas supply and price volatility
- Discuss pipeline transportation and the increased role of Asset Managers in managing LDC gas supply, delivery, and pipeline capacity
- Assess existing and new FERC and PHMSA requirements affecting natural gas utilities
- Identify technologies and techniques that LDCs can use to decarbonize natural gas

INSTRUCTOR

Tom Russo, Principal, Russo on Energy, LLC

ONLINE DELIVERY & PARTICIPATION DETAILS

EUCI will use Microsoft Teams to facilitate participation in the upcoming event. Attendees do not need to have an existing Teams account to participate in the broadcast. The course will play in attendee's browser. When attendees sign on, their microphones are typically muted. Attendees should keep their mic muted until such time as it's needed to ask a question. During the event, participants will have the option of using a microphone to speak with the room and ask questions, or type in any questions via the chat window and our online administrator will relay your question to the instructor.

- Each attendee will receive an event invitation by e-mail, which will include one link to sign on for each half-day of the event (i.e., three links for a 1 ½ day event). The appropriate link must be used to join each half-day event segment at the appropriate time.
- The remote meeting connection will open approximately 30 minutes before the start of the course. We encourage attendees to connect as early as possible in case of unforeseen problems.

- NATURAL GAS UTILITIES 101 ONLINE COURSE:**
SEPTEMBER 23-24, 2021: US \$1,195 (Single Connection)
- PACK OF 5 CONNECTIONS:** US \$4,780 (20% Discount)
- PACK OF 10 CONNECTIONS:** US \$8,365 (30% Discount)
- PACK OF 20 CONNECTIONS:** US \$14,340 (40% Discount)

Substitutions & Cancellations

Your registration may be transferred to a member of your organization up to 24 hours in advance of the event. Cancellations must be received on or before August 20, 2021 in order to be refunded and will be subject to a US \$195.00 processing fee per registrant. No refunds will be made after this date. Cancellations received after this date will create a credit of the tuition (less processing fee) good toward any other EUCI event. This credit will be good for six months from the cancellation date. In the event of non-attendance, all registration fees will be forfeited. In case of course cancellation, EUCI's liability is limited to refund of the event registration fee only. For more information regarding administrative policies, such as complaints and refunds, please contact our offices. EUCI reserves the right to alter this program without prior notice.
