EUCI is authorized
by IACET to offer
0.7 CEUs for the
course

OVERVIEW

This course on HRSG Fundamentals is intended for those that want to know a little bit more about the HRSG and its use in combined cycle and cogeneration plants. Topics to be covered include types of HRSGs, heat exchangers, boiler circulation systems, components, heat management, controls, water chemistry, emission controls, associated equipment, and fabrication/construction. Key features include heat transfer, surface arrangements, design/operating considerations, and integration with combined cycles and cogeneration equipment. Steam conditions will also be discussed.

LEARNING OUTCOMES

- Explain heat transfer and flow within HRSG
- Describe the function of the economizer, evaporator, superheater, reheater, and steam drum components
- Discuss saturated and superheated steam fundamentals, temperature and superheater controls
- Identify purpose of drains, vents, and safety valves
- Outline HRSG controls and protective trips
- Review HRSG construction

WHO SHOULD ATTEND

- New employees who work at or deal with heat recovery steam generators
- Engineering Staff
- Project Management
- Administrative staff who need a better understanding of HRSGs

“I am new to the industry and I found this course to be a perfect introductory course.”

Technical Sales, Groome Industrial

“The perfect course for beginners looking to learn the basics on HRSG.”

Civil Engineer, Intertechne

AGENDA

WEDNESDAY, JANUARY 31, 2018

8:00 – 8:30 am **Registration and Continental Breakfast**

8:30 – 9:00 am **What is an HRSG?**

- Recovers Heat Energy from Another Stream or Process
- Waste Heat Boiler
- Examples
- Electric Generation vs. Cogeneration

9:00 – 9:30 am **Heat Exchangers**

- Basic Flows
- Heat Transfer
- Types of Heat Exchangers
- Key Parameters

9:30 – 10:00 am **Types of HRSG's**

- Horizontal
- Vertical
- Supports
- Surface Arrangements
- Access

10:00 – 10:30 am **Networking Break**

10:30 – 11:00 am **Circulation Systems**

- Natural Circulation
- Forced Circulation
- Steam Drums
- Headers
- Saturated and Superheated Steam

11:00 – 11:30 am **HRSG Components**

- Economizer
- Evaporator
- Superheater
- Reheater
- Steam Drum
- Headers
- Entrance Duct
- Walls
- Linings
- Support Steel

11:30 am – 12:00 pm **Heat Management**

- High, Intermediate, and Low Pressure
- Gas Temperature Management
- Integration With The Steam Cycle
- Supplementary Firing
- Heat and Mass Balances
- Gas Path
- Water Path
- Cooling Tower

“This course is a good overview for any engineer new to this topic.”

Mechanical Engineer, Express Integrated Technologies

“This course alongside the Combined Cycle Fundamentals course will help new employees with little or no experience in the power generation field. This course helped me understand how the plant works outside my office.”

Operation Support Specialist, Puget Sound Energy

AGENDA

WEDNESDAY, JANUARY 31, 2018 (CONTINUED)

- | | |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 12:00 – 1:00 pm | Group Luncheon |
| 1:00 – 1:30 pm | Integration with the Combined Cycle <ul style="list-style-type: none">• Hot Gas Source• Steam Turbine• Condenser• Cooling Tower• Feedwater Train |
| 1:30 – 2:00 pm | Water Chemistry <ul style="list-style-type: none">• Requirements• Water Treatment• Potential for Internal Corrosion |
| 2:00 – 2:30 pm | Emissions Control <ul style="list-style-type: none">• Source of Emissions• SCR• CO Catalyst |
| 2:30 – 3:00 pm | Networking Break |
| 3:00 – 3:30 pm | Balance of Plant Equipment <ul style="list-style-type: none">• Pumps• Valves• Instrumentation• Compressed Air |

| 4:30 – 5:00 pm | Review |

“Very informative.”

Mechanical Engineer,
Express Integrated Technologies

“Great course. Would recommend it for anyone involved with HRSG projects.”

Project Manager, SCS Engineers

“This EUCI course is a great entry-level exposure to HRSG fundamentals.”

Quality Engineer, Hamon Deltak, Inc.

INSTRUCTOR

Carl R. Bozzuto

Honorary Member, The Council of Industrial Boiler Owners

Carl Bozzuto has nearly 50 years of experience in combustion and boiler operations and research. He began his career as a research engineer, senior project engineer, manager, and director for Combustion Engineering Inc. Carl was named vice president of process technology for the company, where he was responsible for the development and commercialization of new boiler and power plant technologies, including advanced cycles, ultra-supercritical boilers, alternative working fluids, fluid bed boilers, plant integration, and other plant component technology. Serving recently as vice president of technology for the Power Environment Sector at Alstom Power Inc., he was responsible for the development and implementation of new technology for boiler and environmental products on a worldwide basis. Bozzuto holds 18 U.S. patents and membership in the American Institute of Chemical Engineers (AIChE), the Combustion Institute, the Source Evaluation Society, and the American Society of Mechanical Engineers (ASME). He has authored more than 30 published technical papers and was editor-in-chief of the textbook Clean Combustion Technologies, published by Alstom Power in 2009. Bozzuto has earned Bachelor of Science and Master of Science degrees in chemical engineering from the Massachusetts Institute of Technology and a Master of Science degree in management from the Hartford Graduate Center (RPI).

“Carl Bozzuto is very informed about HRSG. This venue is one of the few such available to outsiders such as myself. EUCI has put together a great presentation. Very useful!”

Sr. Piping Technologist/Project Manager, Stress Engineering Services, Inc.

“The EUCI offered HRSG course was extremely helpful, covered all the components related to HRSG.”

Senior Engineer, Duke Energy

INSTRUCTIONAL METHODS

This program will use PowerPoint Presentations, group discussions as well as active participation.

REQUIREMENTS FOR SUCCESSFUL COMPLETION

Participants must sign in/out each day and be in attendance for the entirety of the course to be eligible for continuing education credit.

EVENT LOCATION

A room block has been reserved at the The Inn at Opryland, A Gaylord Hotel, 2401 Music Valley Drive, Nashville, TN 37214, for the nights of January 28 - 31, 2018. Room rates are \$151 plus applicable tax. Call **1-615-889-0800** for reservations and mention the EUCI event to get the group rate. The cutoff date to receive the group rate is December 31, 2017 but as there are a limited number of rooms available at this rate, the room block may close sooner. ***Please make your reservations early.***

IACET CREDITS

EUCI has been accredited as an Authorized Provider by the International Association for Continuing Education and Training (IACET). In obtaining this accreditation, EUCI has demonstrated that it complies with the ANSI/IACET Standard which is recognized internationally as a standard of good practice. As a result of their Authorized Provider status, EUCI is authorized to offer IACET CEUs for its programs that qualify under the ANSI/IACET Standard.

EUCI is authorized by IACET to offer 0.7 CEUs for the course

Please make checks payable to: "PMA"

PLEASE SELECT

- SPECIAL RATE FOR 3 COURSES: COMBINED CYCLE POWER PLANT FUNDAMENTALS, HEAT RECOVERY STEAM GENERATOR (HRSG) FUNDAMENTALS AND SAFETY CONSIDERATIONS IN COMBINED CYCLE PLANTS**
JANUARY 29 - FEBRUARY 1, 2018, US \$2595
EARLY BIRD on or before JANUARY 12, 2018: US \$2395
- BOTH COMBINED CYCLE POWER PLANT FUNDAMENTALS AND HEAT RECOVERY STEAM GENERATOR (HRSG) FUNDAMENTALS COURSES:** JANUARY 29-31, 2018: US \$1995
EARLY BIRD on or before JANUARY 12, 2018: US \$1795
- HEAT RECOVERY STEAM GENERATOR (HRSG) FUNDAMENTALS COURSE ONLY:** JANUARY 31, 2018: US \$895
EARLY BIRD on or before JANUARY 12, 2018: US \$795

Substitutions & Cancellations

Your registration may be transferred to a member of your organization up to 24 hours in advance of the event. Cancellations must be received on or before December 29, 2017 in order to be refunded and will be subject to a US \$195.00 processing fee per registrant. No refunds will be made after this date. Cancellations received after this date will create a credit of the tuition (less processing fee) good toward any other EUCI event. This credit will be good for six months from the cancellation date. In the event of non-attendance, all registration fees will be forfeited. In case of course cancellation, EUCI's liability is limited to refund of the event registration fee only. For more information regarding administrative policies, such as complaints and refunds, please contact our offices at (201) 871-0474.
