

MOBILE ENERGY STORAGE

October 21, 2020
Online | Central Time

"The course was able to cover most of the important topics on Energy Storage, including newer technologies. Super recommended".

PV Development Engineer, Lightsource BP

The energy storage industry continues to gain momentum around the world as industries of all types are actively working to minimize their carbon footprints and increase profits. While most energy storage deployments are stationary solutions, grid operators and facility owners around the world are beginning to recognize the value that mobile systems can provide. Utilities, independent power producers (IPPs), regional transmission organizations (RTOs) and industrial and commercial organizations can benefit from energy storage systems that are flexible, mobile and quick to deploy.

LEARNING OUTCOMES

- Review what mobile storage is and why you might want it
- Identify what mobile storage can do for you
- Review the differences between stationary storage and mobile storage
- Identify the different types of storage that work with mobile
- Discuss the major components of mobile storage solutions
- Examine lessons learned and things to think about

INSTRUCTOR

Doug Houseman, *Utility Modernization Lead, Burns & McDonnell*

EUCI is authorized by IACET to offer 0.7 CEUs for the course. Participants must log on each day and be in attendance for the entirety of the course to be eligible for continuing education credit.

ONLINE DELIVERY & PARTICIPATION DETAILS

EUCI will use Microsoft Teams to facilitate participation in the upcoming event. Attendees do not need to have an existing Teams account to participate in the broadcast. The course will play in attendee's browser. When attendees sign on, their microphones are typically muted. Attendees should keep their mic muted until such time as it's needed to ask a question. During the event, participants will have the option of using a microphone to speak with the room and ask questions, or type in any questions via the chat window and our online administrator will relay your question to the instructor.

- Each attendee will receive an event invitation by e-mail, which will include one link to sign on for each half-day of the event (i.e., three links for a 1 1/2 day event). The appropriate link must be used to join each half-day event segment at the appropriate time.
- The remote meeting connection will open approximately 30 minutes before the start of the course. We encourage attendees to connect as early as possible in case of unforeseen problems.

PLEASE SELECT

- MOBILE ENERGY STORAGE ONLINE COURSE:**
OCTOBER 21, 2020: US \$795 (Single Connection)
- PACK OF 5 CONNECTIONS:** US \$3,180 (20% Discount)
- PACK OF 10 CONNECTIONS:** US \$5,565 (30% Discount)
- PACK OF 20 CONNECTIONS:** US \$9,540 (40% Discount)

Substitutions & Cancellations

Your registration may be transferred to a member of your organization up to 24 hours in advance of the event. Cancellations must be received on or before September 18, 2020 in order to be refunded and will be subject to a US \$195.00 processing fee per registrant. No refunds will be made after this date. Cancellations received after this date will create a credit of the tuition (less processing fee) good toward any other EUCI event. This credit will be good for six months from the cancellation date. In the event of non-attendance, all registration fees will be forfeited. In case of course cancellation, EUCI's liability is limited to refund of the event registration fee only. For more information regarding administrative policies, such as complaints and refunds, please contact our offices. EUCI reserves the right to alter this program without prior notice.
