

EUCI Presents a Course on:

FERC NATURAL GAS 101

March 24, 2010 • Hyatt Regency-Crystal City • Arlington, VA

FERC NATURAL GAS 101

March 24, 2010

OVERVIEW

FERC Natural Gas 101 provides a comprehensive overview of the agency's impact on the natural gas and LNG industries. This one day course is for those seeking a basic knowledge of FERC's natural gas and LNG policy and regulations, those desiring a refresher course, and those who want to learn about the current hot topics at the agency.

WHO SHOULD ATTEND THIS COURSE

Traders, marketers, managers, members of the financial community, attorneys and anyone else who is interested or has a need to know about the laws governing FERC and its rules, policies and procedures that affect the natural gas and LNG industry. The course will benefit those seeking a basic knowledge of FERC, those desiring a refresher course, and those seeking insight on current agency proceedings involving natural gas and LNG.

WHAT ATTENDEES WILL LEARN

FERC has broad authority to regulate many aspects of the natural gas industry, particularly transportation and storage activity. Attendees will learn about the jurisdictional reach of and limits on FERC's power and how its exercise of that power affects the regulated entities that it oversees and the marketplace for gas generally. FERC policies and decisions on issues such as certification of projects, developing cost-of-service rates, market-based rates, storage, regulation of gas markets, standards of conduct and enforcement, LNG, as well as other timely issues, will be addressed.

ABOUT THE INSTRUCTORS

Richard Lorenzo, Partner, Day Pitney LLP

Richard Lorenzo is a Partner at the law firm of Day Pitney LLP. He has over 30 years of experience in the energy industry, antitrust, and complex litigation and is the head of the firm's Natural Gas practice. Recently, he has represented customers on the El Paso Pipeline in appeals of FERC Orders reallocating pipeline capacity and has assisted natural gas LDCs in state ratemaking proceedings. For many years, he has represented Hinshaw pipelines, state commissions, and others before FERC in natural gas matters. He has extensive experience representing LDCs in both federal and state courts. At both the state and federal level, he has been involved in every type of regulatory proceeding from rate cases to rulemakings to prudence investigations involving over \$10 billion in capital assets. He also was at the forefront of FERC's successful effort to unbundle the natural gas industry through Order Nos. 436, 500, and 636. He is the author of "FERC Fails To Resolve Aspects of Rolled-In-versus-Incremental Debate," which appeared in Natural Gas, and the chapter on "Natural Gas Transportation" in ENERGY LAW AND TRANSACTIONS.

Mr. Lorenzo received his B.S. degree from the State University of New York at Albany in 1972, his J.D. degree from Case Western Reserve University in 1975, and his LL.M degree from Columbia University in 1981. He has been admitted to the bar in New York, as well as numerous federal courts and the United States Supreme Court.

Michael Stosser, Of Counsel, Day Pitney LLP

Michael A. Stosser is Of Counsel at the law firm of Day Pitney LLP. He has 30 years of experience in many aspects of the energy industry, from traditional energy - natural gas, oil and power - to renewable and alternative energy and clean tech. His practice includes project development and finance of renewable and alternative energy projects, state and federal regulatory matters, and legislation. Mr. Stosser represented interstate natural gas pipelines in matters before federal and state regulatory agencies in certificate, enforcement, and rate proceedings, including a three-month Section 4 rate case. In addition, Mr. Stosser represented industrial and commercial end users of gas and gas marketers in designing natural gas purchasing/sales programs for over 200 manufacturing and commercial facilities. He has handled regulatory issues and represented clients in the development, construction and sale of cogeneration and other power generation projects. He has represented natural gas pipelines and electrical utilities in matters before federal and state regulatory agencies, and he has represented clients before Congress.

Mr. Stosser received his B.A. degree, with Honors, from California State University in 1974, and his J.D. degree, with Honors, from Southwestern University School of Law in 1978. He has been admitted to the bars in New York, the District of Columbia, and California, as well as the U.S. Court of Appeals for the District of Columbia Circuit and the United States Supreme Court.

EUCI is registered with the National Association of State Boards of Accountancy (NASBA) as a sponsor of continuing professional education on the National Registry of CPE Sponsors. State boards of accountancy have final authority on the acceptance of individual courses for CPE credit. Complaints regarding registered sponsors may be addressed to the National Registry of CPE Sponsors, 150 Fourth Avenue North, Suite 700, Nashville, TN, 37219-2417. Web site: www.nasba.org. For more information regarding administrative policies such as complaint and refund, please contact our offices at (303) 770-8800.

CPE CREDITS

Upon successful completion of this event, program participants interested in receiving CPE credits will receive a certificate of completion. Course CPE Credits: 9

There is no prerequisite for this conference.
